IMEC (Marie Cobel) with “Friends”
May 4, 1986

Session 182: What the Friends see

Summary: This is a bit of a more advanced session. The dialogue is disjointed though the content can be discerned with patience. The Friends talk about how they see through the eyes of people on Earth. The Energy systems of people and how each person views their own version of reality. Martin asks the Friends to speak about the energies.
